

BUNDLES

Validated by extensive evidence-based research, care bundles have emerged as a systematic way to provide consistent, high-quality care and improve patient outcomes. And payers have started to recognize care bundles as a better-value option. Whether you're just starting to think about your care bundle opportunities or would like to expand your current strategy, we'll help you assess, define, and deploy a structured approach that fits your needs.

Getting Started

An effective care bundle strategy starts with treatment analytics and is followed by a solid construction plan. Once a bundle strategy is designed and defined, your practice can deploy and perform ongoing analytics with optional support from Revo Health.

What It Costs

One-Time Fixed Fee Includes:

- ✓ Treatment Analytics
- ✓ Bundle Construction

Also Available at Additional Cost:

- ✓ Deployment
(Cloud-based Case Management Software)
- ✓ Assessment Services

Established in 2017, Revo Health is a Minnesota-based, privately-held company. Our mission is to help independent physician practices design and build affordable, innovative value-based care solutions that grow with their needs. We're leading the value-based care revolution, and we believe it begins with you. To learn more, visit us at www.RevoHealth.com.
